Sudi Patel BSc(Hons) MPhil PhD FCOptom FAAO, Kenny Blades BSc(Hons) PhD CBiol MIBiol : The Dry Eye: A Practical Approach, 1e before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Dry Eye: A Practical Approach, 1e:

This invaluable text covers the successful management of dry eye conditions very succinctly and in a way relevant for the modern practitioner or student. Setting goals and treatment objectives, and brimming with sound practical advice, it adopts a clinical decision-making approach to the subject. Management and treatment options are prioritised and evidence-based. An essential pocket reference for all students and practitioners treating dry eye conditions including ophthalmologists, optometrists, dispensing opticians, ophthalmic nurses and all those involved in the management of these challenging conditions. Clear discussions explain how to set priorities and establish guidelines for treatment

based on the patient's presenting symptoms. No other book presents a succinct, practical guide to treatment and successful management of dry eye. All factors that can cause dry eye conditions are addressed, looking beyond the most common contact lens complications to factors such as disease, the environment, and equipment worn by the patient. Clinically relevant approach makes this unique resource extremely useful in the patient-care setting. Practical advice outlines succinct methods for the most effective management of dry eye conditions. Comprehensive information is presented in a quick-reference, synoptic format that's convenient and easy-to-use. Well-referenced chapters present evidence-based information and point to original sources for further research and investigation. Both common and severe dry eye conditions are covered, prioritized so clinicians can see the treatment implications associated with each. Clear illustrations and line diagrams show key visual concepts and help readers see the real-world clinical applications.

""The authors cover the importance of the structure of the normal tear film, and how different types of dry eyes can arise."" Jenifer P. Craig, *Optometry Today*, July 2004
